

one another are in communication via a shuttle valve with the first (B) and a second line connection (T).

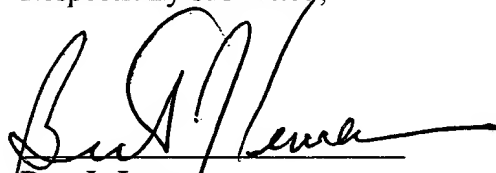

42. A hydraulic transformer according to claim 41 wherein the shuttle valve forms part of the face plate or is coupled thereto. --.

REMARKS

The specification has been amended to place it in proper form for U.S. examination. Original claims 1-20 have been cancelled and claims 21-42 have been added.

Entry of this amended is respectfully requested.

Respectfully submitted,
